

## David Dexter

**BSc (Hons) CEng MStructE**  
**Managing Director**

### Experience

David Dexter has worked in the building industry for over 20 years working with many progressive architects and clients. He has been responsible for projects such as Waterloo International Terminal train shed roof with Nicholas Grimshaw and Partners, the Burj Al Arab Hotel atrium fabric wall with Atkins Architects, Paddington Station Redevelopment again with Nicholas Grimshaw and Partners and the Daegu Stadium in Korea with Korean Architects Idea Image Institute.

Since setting up David Dexter Associates he has continued working on the more complex engineering projects such as the new Southern Cross Station in Melbourne Australia with Grimshaw Architects and Australian engineer Winward Structures, the new Welsh Assembly building in Cardiff for SH Structures and the Komodo Dragon enclosure at London Zoo. He is also working in more traditional forms of construction on residential developments in East London and Brentford.

### Career History
