

**Toby Mason**

**BSc (Hons) MSc Beng MStructE**  
**Associate Director**

**Experience**

At Associate Director level Toby is principally responsible for scheme design within DDA, with a particular focus towards larger scale ETFE, tensile fabric structures, and timber/glass projects. Projects include: The Welcome Pavilion - Yas Island, Bradford University Atrium, Cutty Sark Pavilion, development of a modular sustainable timber framing solution for domestic housing and two pedestrian bridges with SH Structures. Prior to joining DDA, Toby worked on the design of numerous contemporary projects employing the use of tensile fabrics, timber and glass. These included Anish Kapoor's PVC Sculpture the Taratanara, The Sultan of Brunei's 50th Birthday VIP Tent, ETFE Air Pavilion at Magna, Tree of Life - Central Show Millennium Dome. Timber Space Frame Earth Centre Canopy. Modular House for Channel 4's Grand Designs. He also has experience in bridge design, Category 3 checks on Lan Tau Bridge Hong Kong, a stress ribbon concrete bridge with Studio E and a pedestrian bridge at the Earth Centre. In the past he has also acted as a consultant to the Lawn Tennis Association for the design of all air supported structures through England and Wales. Toby has an MSc in the Analysis & Design of Structures for Dynamic Loading, specialising in the design of Air Supported Fabric Structures.
